Tested Item 3: Black, white coatings (sewn label)

Note: "<" = less than

mg/kg = milligram per kilogram

Method: Sample was digested with acid reference to EPA3051 and then analyzed by Atomic Absorption

Spectrophotometer or Inductively Coupled Argon Plasma Spectrometer.

REMARK(S):

- 1. See enclosed protocol for the test results.
- 2. As per the request, only the following test(s) was conducted in this test report:
 - Client's 8 phthalates content test
 - Lead content in surface coating test
 - Client's Total Lead Content test
 - Total Cadmium Content test
 - -Lead in PVC
 - Performance test under BVCPS protocol 2070(CN) and 2070(US)

- 3. The submitted sample(s) did not contain any material which is applicable for Lead in PVC test. Therefore, no testing under Lead in PVC was conducted. \
- 4. Per client's request, add the retest report#85173120512 result into report.

NOTE: If there are questions or concerns regarding above report, please contact the appropriate lab persons.

			The warnings shall be printed clearly as to prevent the ink from smearing or upon a gummed label securely attached to the bag. It shall be contrasted by typography, layout or color from the contents of the bag and from other printed matter on the bag, if any.					
			If the total length and width of the bag is more than 40 inches, the warning shall be repeated at intervals of 20-inches or less.					
			Except laundry bag, the font size of the warning must adhere to the chart listed below:					
			Total Length and Width of Bag Size of Print					
			60 inches or more At least 24 points					
			40 inches to less than 60 inches At least 18 points					
			25 inches to less than 40 inches At least 14 points					
			Less than 25 inches At least 10 points					
			For laundry bag, the font size of the warning should be at least 36 points.					
R	Labeling review:	16 CFR 24	Must conform to guidelines for leather content / general fiber content labeling	X	X	X	NT	/
	leather		If all or part of a product is made of non-leather material that appears to be leather, the non-leather material must be disclosed on the retail packaging. The disclosure must be of such conspicuousness and clarity as to be noted by consumers casually inspecting the product. The disclosure must be in close proximity to the product identification.					
			NOTE: A material that contains ground, pulverized, shredded, reconstituted or bonded leather cannot be represented as being wholly leather. Adequate disclosure of these leather types must be present.
